AAAA

Vigilance Branch has found following deficiencies in R.P registers during last check in one of the divisions

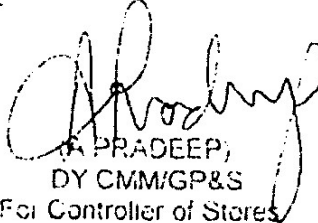

1. R.P register itself was not maintained at all
2. Last Sold/Rejected rates were not available
3. Other Units data is not available in the records which is useful in fixing the Reserve price.
4. Basis for fixing of RP was not endorsed

In view of the above, it is advised that all Divisions/Depots have to rectify the above deficiencies while fixing RP

1. Hard copies of RP registers has to maintained by the auction conductor officers.
2. Adequate care has to be taken in while fixing RP.
3. Last sold/rejected rates should be recorded
4. Other units data should be downloaded for cross reference
5. Basis of fixing RP to be recorded.

It is advised that all Scrap depot/Divisional officers to bring their Last 6 months RP Registers for scrutiny in next scrap review meeting.

Matter may be treated as **MOST URGENT**
