

Automation & Innovations

S.No	Name of the Automation/ Innovation	Photograph
1	Computerised Test Rig for Air Spring suspension Control Equipment	
2	Air Plug Gauge for Measurement of Roller Bearing Bore Diameter	
3	Computerised Automated DV Test Bench	
4	Mechanized Bogie manipulator with pneumatic tooling system for Assembly/disassembly of FIAT Bogies	
5	Measuring of bogie dimensions through portable coordinate measuring machine	
6	developed test bench to check the WSP unit functionality in dynamic condition	
7	Speed sensor test rig for testing the functionality of speed sensors pertaining to Wheel slide protection system	
8	Developed of Testing facility for FIBA device
